from the experience of **PRX-T<sub>33</sub><sup>®</sup>** with more than 1 million performed treatments, here comes the new

**No-needles biorevitalisation  
for external female private parts**

**PRX-T<sup>lady</sup> COMBINES CALIBRATED AMOUNTS OF TCA AND H<sub>2</sub>O<sub>2</sub>:**

33 % TCA

The TCA 33% stimulates fibroblast growth factors without harming the skin, while the H<sub>2</sub>O<sub>2</sub> improves the affinity for the receptor.

# PRX-T<sup>®</sup> *lady*

NON-ABLATIVE CHEMICAL STIMULATION OF THE SKIN  
BIOREVITALISATION WITHOUT NEEDLES

## INDICATIONS

Treatment of **hyperpigmentation** and **chrono-aging** of female outer intimate areas, areolas and perianal zone

# PRX-T<sup>®</sup> lady

## BIOREVITALIZATION WITH PRX-T lady

- **whitens** hyperpigmented areas
- gives **turgidity** and **firmness** to the skin without damaging the epidermis
- for an immediate and **long-lasting aesthetic improvement**
- **needle-free** and **painless**

## An effective and non-invasive treatment to face the aging of external private parts.

The **intrinsic aging** occurs also in the covered areas and the menopause suddenly worsens its perception.

The **climacteric** is an event that now occurs in the middle of an active life and not – as it happened in the past – at its end.

The active life consists of all its aspects, including intimacy.

Suggest the **PRX-T<sup>®</sup> lady** for the intimate parts to your patients and help women with a discomfort that is often difficult to express.

**Dr. R.Castellana, MD**

1. Clean the area to be treated with P-Solution WiQomed
2. Perforate the vial stopper with a 18 G needle
3. Insert the syringe on the needle and draw the quantity you need
4. Protect the mucous membranes with a greasy product (eg. Vaseline)
5. Remove the needle and apply (with a syringe without needle) a limited quantity of product on the skin in the area to be treated

# PRX-T<sup>®</sup> *lady*

6. Treat the area with the specific application technique learned, applying 3 layers till the product is absorbed
7. Treat zone by zone until all the desired surface is treated
8. Remove the residue product with a gauze soaked in water

# PRX-T<sup>®</sup> lady

10. In case of hyperpigmentation, carry on the treatment with home care WiQo Lightening Serum for External Delicate Areas
